Hiring Manager

R1 RCM

India / US Remote Operations

Re: Director, Revenue Cycle Operations — Remote

Dear Hiring Manager,

I am writing to apply for the Director, Revenue Cycle Operations position at R1 RCM. With **16+ years leading end-to-end RCM operations** for US healthcare providers — combined with hands-on experience building AI-powered RCM technology — I offer a rare blend of operational leadership and innovation that directly aligns with R1 RCM's mission to make healthcare work better through technology-driven solutions.

As Director of Revenue Cycle Operations at Dharma Solutions since 2010, I have managed the complete revenue cycle lifecycle: patient scheduling, insurance verification, coding compliance (CPT/ICD-10), billing workflows, denial management, appeals strategy, and payment recovery. I have built and led teams of 20+ professionals, established KPIs and SLAs, and driven structural improvements in denial recovery rates, coding accuracy, and revenue optimization across multi-specialty client portfolios.

What makes me uniquely valuable to R1 RCM is my **dual expertise as both an operator and a builder**. I am the founder and architect of Denial Doctor — a HIPAA-compliant multi-agent AI platform for healthcare claim denial management currently in production. This system uses 6 specialist AI agents to process denied claims end-to-end: classifying denial types, generating corrected codes, scrubbing claims for resubmission, and drafting appeal letters with verified regulatory citations. I understand not just how to run RCM operations, but how to leverage AI and automation to transform them — which is exactly what R1 RCM is building.

I am particularly drawn to R1 RCM because of your scale, your technology-forward approach, and your commitment to making healthcare work better. I would bring both the operational rigor to lead large-scale RCM delivery and the technical vision to drive AI adoption and process optimization.

I would welcome the opportunity to discuss this role further and explore how my experience can contribute to R1 RCM's continued growth and innovation.

Rajesh Kantubhukta

Director, Revenue Cycle Operations | Healthcare RCM + AI
