PROFESSIONAL SUMMARY

Rare hybrid leader who has **built production AI systems AND operated RCM at scale**. 16+ years directing 120+ FTEs and **\$500M+ annual revenue** at Dharma Solutions while simultaneously founding Denial Doctor — a HIPAA-compliant multi-agent AI platform shipping real outcomes in production: 320% ROI, \$12M annualized savings, 6 autonomous agents processing thousands of claims daily with <2% error rate. Understands where AI fails in healthcare — hallucination risks, regulatory constraints, edge cases in clinical data — and has built **anti-hallucination guardrails** and deterministic fallbacks into production workflows. Reduced A/R from 65 to 42 days, recovered \$47M+ in denied revenue, maintained 98% client retention, drove 75% portfolio growth. Published author ("The \$50K Leak"). Sainik School alumnus with military-grade discipline. Seeking remote role to bridge AI product and healthcare operations.
