

Rajesh Kantubhukta

Director of Revenue Cycle | 16+ Years US Healthcare RCM | AI-Driven Operations Leader

+91 9000111537 sriiraaj@gmail.com linkedin.com/in/rajesh-kantubhukta-63537a40 rajeshkantubhukta.github.io

PROFESSIONAL SUMMARY

Results-driven **Revenue Cycle Director with 16+ years** managing end-to-end healthcare revenue cycles for US-based providers across multiple specialties including orthopedics and sports medicine. Deep expertise in denial management, coding compliance, payer relations, and offshore team leadership. Unique dual profile: **deep domain operator who also architects production AI products** for healthcare RCM, including a HIPAA-compliant multi-agent denial management platform. Published author on RCM revenue loss patterns. Proven track record of reducing Days in A/R from 65 to 42 and recovering \$47M+ in denied revenue.

PROFESSIONAL EXPERIENCE

Director, Revenue Cycle Operations Dharma Solutions

June 2010 - Present | 16 years

- Lead end-to-end RCM operations for US healthcare providers across multiple specialties including orthopedics, sports medicine, and multi-specialty groups - managing patient scheduling, insurance verification, coding compliance, billing workflows, denial management, appeals, and payment posting
- Manage **120+ FTEs** across Patient Access, Coding, Billing, and Collections - a complex operation demanding precision, empathy, and strategic vision in equal measure
- Reduced Days in A/R from 65 to 42 and recovered **\$47M+ in denied revenue** through structural denial pattern analysis and targeted intervention strategies
- Drove **75% client portfolio growth** while maintaining 98% client retention rate through operational excellence and proactive account management
- Manage **\$500M+ in annual revenue** across client portfolios, ensuring consistent cash flow optimization and revenue integrity
- Drove implementation of AI and automation tools to improve denial recovery rates and reduce manual effort - achieving faster turnaround on claim corrections and appeal submissions
- Built and led cross-functional operations teams, establishing KPIs, SLAs, and process documentation for consistent delivery quality
- Managed payer relationships and contract analysis to optimize reimbursement rates and reduce underpayment occurrences
- Oversaw compliance with HIPAA, SOC 2, and healthcare regulatory requirements across all operational workflows

Level 2 Technical Support Engineer Knoah Solutions / Earthlink

3 Years

- Provided Tier 2 technical support for Earthlink, a major US ISP - resolving complex network and connectivity issues for enterprise and consumer clients
- Served as escalation point for Tier 1 support, handling advanced troubleshooting and reducing average resolution time

Technical Support Engineer Sutherland Global Services

1.5 Years

- Supported Windows 7 enterprise deployment and troubleshooting, ensuring smooth OS transitions for corporate clients

AI PRODUCTS & INNOVATION

Denial Doctor - AI-Powered Denial Management Platform (In Production)

- Architected and built a **HIPAA-compliant multi-agent AI platform** for healthcare claim denial management using Next.js 16, React 19, TypeScript, Turso/libSQL, and Azure OpenAI
- Designed 6 specialist AI agents - Orchestrator, Demographics, Eligibility, Coding, Billing Scrubber, Appeals - each with defined scope boundaries and anti-hallucination guardrails
- Coding agent **generates corrected CPT/ICD-10 codes** using rule-based logic first, AI generation as fallback - with confidence scoring and human review gates
- Achieved **320% ROI and \$12M in annualized savings** for client operations through automated denial processing
- Deployed on Vercel at denialsdoctor.com with real-time agent status monitoring and FHIR R4 / X12 EDI integration roadmap

PUBLICATION

The \$50K Leak: An Operator's Playbook to Fix Hidden Revenue Loss in Healthcare RCM

Author: Rajesh Kantubhukta | Published: May 2026 | Amazon Kindle
Practical framework identifying structural revenue leaks in healthcare RCM - scheduling inefficiencies, coding errors, authorization gaps, denial management failures, and where AI adds real value vs. where it fails in production.

CORE COMPETENCIES

- ▶ Healthcare Revenue Cycle Management (End-to-End)

▶ Denial Management & Appeals Strategy

▶ Orthopedic & Specialty Care RCM

▶ Offshore Team Leadership (120+ FTEs)

▶ HIPAA Compliance & SOC 2 Operations
- ▶ AI/ML in Healthcare Operations

▶ Coding Compliance & Audit (CPT/ICD-10)

▶ Process Optimization & Workflow Design

▶ Data Analysis & Revenue Performance Reporting

▶ Payer Relations & Contract Management

EDUCATION

Master of Business Administration (MBA) IGNOU - Indira Gandhi National Open University	2010
Bachelor of Technology (B.Tech) - Mechanical Engineering IME - Institute of Mechanical Engineers	2005
